INSTALLATION

Drop the Auvergne_2 folder in your Custom Scenery repertory

DESCRIPTION

This scenery concerns the main part of the region Auvergne (center of France) enhanced from the basic scene, to provide a VFR environnement to the region.

WHAT'S NEW IN VERSION 2.0 ?

- **airports and taxiways corrected** following real approach charts :
 - LFHT Ambert
 - LFLW Aurillac
 - LFHQ Brioude Beaumont
 - LFLC Clermont-Ferrand Aulnat
 - LFHA Issoire Le Broc
 - LFHX Lapalisse
 - LFHY Moulins Montbeugny
 - LFHP Le Puy en Velay
 - LFLO Roanne Malmaison
 - LFHR Saint-Flour Coltines
 - LFCU Ussel Thalamy
 - LFLV Vichy Charmeil
- **photorealistic surrounding of LFLC**
- **more accurate vectors** (rivers and roads)
- corrected elevations in **the area of Cantal mountains**
- **addition of buildings and other textured objects** especially around all airfields (execepted Roanne, just out of the area) : THESE OBJECTS WERE CREATED BY OTHER AUTHORS, especially Didier Chauveau (Chambord scenery), the Skydream Team (PACA 2), Christian Frantz (Object Library), Bernie Fritts and Planebuilder (static planes), and other objects I did not find the authors. These resources are available on <http://www.x-plane.org>. Acknoledgements to all for their kind authorizations and for their contribution to realism in X-Plane !
